| 1072S | Evolution Disposal Conversion Splash Guard | 2.22 | 12 |

JB Signature Disposal Trims Matte Celcon for ISE Evolution

Matte finishes match most composite sink finishes, see JB Signature Composite Sink Finish Cross Reference Chart below. Molded from Celcon plastic, they are resistant to chipping and scratching like painted metal disposal flanges. See instructions on the next page on how to install these into your InSinkErator Evolution disposal. Oil Rubbed Bronze is a matte finish so no M is needed in the part number. Packaged in clam shell or box.

| Item No. | Description | List | Qty |
|----------|---|-------|-----|
